"This will clearly help deliver my sales force transformation. Thank you... Can I have it now?"

US CEO & Board Member, Leading Global Consumer Goods Company

SITUATION

Developed a new solution narrative connecting platform capability to the customer's front office transformation and digital trade portal priorities. Led architecture reviews alongside executive business case sessions.

US CEO and Board Member, Chief Supply Chain Officer, Global IT leadership, and an internal pursuit team spanning 5+ functions including pre-sales, product, services, creative, and partner alliances.

SITUATION
